Subject: Microsoft settlement

PLEASE settle this lawsuit with Microsoft with no further litigation. It has gone on long enough for a company that I feel has followed the path that the strength of this country was built on. They started from nothing and built it into a very successful company. If other companies can't compete then they shouldn't be crybabies, but find a different product or become better competitors without running to the fed gov to solve their problems. Bill Linker PS: this is the first time I have tried to make my voice heard but I feel strongly enough about this to respond.
